EAWSD District and Water Service Area Map

This map shows the area served by EAWSD, as well as the boundaries of the legally-constituted Water and Sanitation District. Here's what these terms mean:

EAWSD Service Area *(bounded by a bold red line)*

This is the area within which EAWSD can provide water service; however, EAWSD water distribution lines do not extend across all of the area.

EAWSD District Area *(shaded in blue)*

This is the area that was officially and legally designated by the State of New Mexico as the ELDORADO AREA WATER & SANITATION DISTRICT when the District was established in 1997, as well as properties annexed into the District since 1997.

Properties within the District *(area shaded in blue)*

- District water lines are accessible to properties throughout most of this area.
- EAWSD must provide water service to properties if water is available.
- Properties are assessed a District tax, which is a portion of EAWSD's annual revenues.
- Residents, customers and owners of all properties may vote in District elections.

Properties outside the District, but within the Service Area *(bounded by red line)*

- District water lines may not be accessible to properties in this area.
- EAWSD may refuse water service to properties in this area.
- Properties are not assessed a District tax, but pay a higher monthly base fee in lieu of a tax.
- Only EAWSD customers may vote in District elections.
- Properties outside the District may be annexed into the District by petition to and approval of the EAWSD Board.
